RE: Request for Quote for Scholarchip Door and Classroom Readers

Counts:
138 secured doors.
65 classrooms.

Each door will need:

1. Run a power line from the junction box back to the power supply in the IT closet on that wing. (The power for the doors may also be daisy chained together) The power supply is provided by the electrician.
2. Install the WPIP Webpass outside the door.
3. Run a RS485 and power line from the junction box to the WPIP.
4. Install the WPIP Relay in the junction box.
5. Run a wire from the electrified hinge to the junction box.
6. Install and wire a door contact.

The WPIP Relaybox is connected to the WPIP via RS485 and will mount in a provided 12x12x4 junction box above each door.

The following is provided:

1. All boxes and conduits with pull string.
2. Locks and wire up to electric hinge.
3. Junction box
4. Scholarchip will IP the units before shipping
5. CAT6 is run to the WPIP reader

Classroom Attendance:

Need a classroom attendance device installed. It is the same as a WPIP Webpass. The CAT6 will already be run.

One each classroom you will need to:

Install the WPIP Webpass unit

THANK YOU FOR YOUR BUSINESS!

STATEMENT OF WORK

SYSTEM TYPE: Video Surveillance

MANUFACTURER: Exacq/Illustra

This quote includes provision and installation of the video surveillance system for this new Elementary School in the Hamilton County School District. The major components include:

Qty (1) Exacq Z-Series NVR with modifications per spec provided by Isaac Goyette on 11/09/2016
Qty (18) Samsung 4MP outdoor cameras per drawing takeoff; includes wall mounts, pendant caps and surge protectors
Qty (57) Samsung 4MP indoor cameras per drawing takeoff

*All other ancillary equipment and cabling required for a working system shall be provided by others.

Note 1 - The Exacq NVR comes with (8) channel licenses. A provided spec called for an additional (80) licenses. We have reduced the qty to (67) additional licenses which will cover the total camera count of (75).

Note 2 - this quote includes Split Pine labor to perform the following installation and configuration services:

- (a) Configuration of all (75) cameras including IP addressing and adjusting camera settings for optimal image quality
- (b) Physical installation and optical view adjustments of all (75) cameras
- (c) Physical installation and configuration of the Exacq Z-Series NVR including recording settings and user login credentials as approved by the customer. Rack space, network connectivity and UPS power to be provided by the customer or others.
