RE: Request for Quote for Scholarchip Door and Classroom Readers

Counts:

138 secured doors.
65 classrooms.

Each door will need:

1. Run a power line from the junction box back to the power supply in the IT closet on that wing. (The power for the doors may also be daisy chained together) The power supply is provided by the electrician.
2. Install the WPIP Webpass outside the door.
3. Run a RS485 and power line from the junction box to the WPIP.
4. Install the WPIP Relay in the junction box.
5. Run a wire from the electrified hinge to the junction box.
6. Install and wire a door contact.

The WPIP Relaybox is connected to the WPIP via RS485 and will mount in a provided 12x12x4 junction box above each door.

The following is provided:

1. All boxes and conduits with pull string.
2. Locks and wire up to electric hinge.
3. Junction box
4. Scholarchip will IP the units before shipping
5. CAT6 is run to the WPIP reader

Classroom Attendance:

Need a classroom attendance device installed. It is the same as a WPIP Webpass. The CAT6 will already be run.

One each classroom you will need to:

Install the WPIP Webpass unit
